Subsea 2012 Exhibition

Wednesday 8th February, 08:30 - 17:00

Thursday 9th February, 08:30 - 16:00

Since 2004 the annual subsea exhibition and conference has grown to establish itself as the front-running, largest and most dynamic industry event of the year, culminating in Subsea 2012.

With well over a hundred exhibitors showcasing innovative subsea technology and services and over three thousand visitors expected, Subsea 2012 is going to be an exciting event, buzzing with activity. The exhibition runs for two days so please ensure you plan your time to make the most of your visit. There will be plenty of opportunity to mix with other visitors to make new contacts and the catering area makes an excellent place to meet others and enjoy the lunch provided free of charge.

Subsea UK, organisers of Subsea 2012 is a not-for-profit trade body created by the subsea industry. Subsea UK has over 230 member companies, who benefit from discounted rates on services. Beyond exhibiting, this extends to all events, sponsorship opportunities, promotional services and advertising costs. Subsea UK exists to help expand and develop your business and connect you with new contacts.

Wednesday 8th February 2012, 09:00 - 15:45, AECC

Subsea 2012 Conference

An impressive conference programme, featuring a world-leading line-up of industry speakers, will run in parallel with the exhibition.

The conference will cover a wide-range of topics including offshore renewables, the latest developments in subsea and marine construction, global subsea markets, new technology, safety performance and future skills.

Parallel sessions will also be available for delegates to attend which will address the key issues of the day from oil and gas technology transfer into renewables to creating a future talent pool.

Thursday 9th February 2012, 09:00 - 16:00, AECC

Programme of Events

09.00 - 11.00 Hear from UKTI Commercial Officers, NOCs and invited speakers on the latest developments in Latin America, the opportunities that exist and how to access them.
